

i pay for this service and should have the right to say who calls me. if they change this no call law; I will immediately have my phone lines disconnected and use my cell phone.
furthermore, i will start a national campaign to get others to do the same. we will see how the phone co.'s like that. then we will see who has more pull, the bankers or the telecommunication co.'s. it's a sorry state when the people's rights are always the last ones considered. same is true of the volume control on commercial breaks on television; another invasion of privacy. well enough said; now i will sit back and watch the show... mike
